

FUND STRATEGY

The Fund typically invests in approximately 20 to 25 holdings of small to mid-sized U.S. companies that the portfolio managers believe represent the best equity investment opportunities. The Select Fund applies a "value approach" to investing, seeking to invest in common stocks that the portfolio managers believe are currently undervalued by the market or that represent special situations. The Fund may also invest in other securities, including obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The performance assumes reinvestment of capital gains and dividends. Fund performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-800-697-3863 or visiting www.tocquevillefunds.com.

*The Advisor has contractually agreed to waive management fees and/or reimburse expenses in order to ensure that the Fund's expense ratio does not exceed 1.25% (excluding taxes, interest expense, acquired fund fees and expenses, or extraordinary expenses such as litigation) until at least 3/1/2020. In the absence of these fee waivers, total returns would be lower.

*Performance information represents only past performance, before and after taxes, and does not necessarily indicate future results. Performance for the period 9/27/08 to 9/27/09 is for the Delafield Select Fund ("DSF"), a series of Natixis Funds Trust II, which was reorganized into The Select Fund on 9/28/09. Performance for periods prior to 9/27/08 is of the Reich & Tang Concentrated Portfolio L.P. (the "LP"), which was reorganized into DSF on 9/26/08. Following the reorganization of the LP into DSF, the LP's returns were adjusted to deduct estimated fees and expenses applicable to DSF's Class Y shares, based on projected asset levels for the first operating year of its Class Y shares (not taking into account any fee waivers or expense reimbursements). DSF and the LP had most of the same Portfolio Managers and substantially identical investment objectives and strategies as The Select Fund. Performance since 9/28/09 reflects actual Select Fund performance.

QUARTERLY UPDATE

- U.S. stocks endured a bout of volatility in the second quarter, but by and large managed to eke out increases for the entire three-month period. The quarter began on an optimistic note, with satisfactory corporate earnings results and sanguine economic data driving the indices to gains. However, markets sharply retreated in May as trade talks with China appeared to completely breakdown, the U.S. banned sales to Huawei and President Trump threatened the implementation of tariffs on goods coming out of Mexico. Markets reversed course yet again in June, after the ban on sales to Huawei was temporarily lifted, trade talks with China were rumored to restart and the threat against Mexico was revealed to be no more than a threat.
- During the quarter, the Tocqueville Select Fund, which had a return of -0.17%, trailed the Russell 2500 and Russell 2000 indices by about 300 and 200 basis points, respectively. Investors' predilection toward growth over value remained a headwind for the Fund, with the value components of the Russell 2500 Index again underperforming the growth constituents, this quarter by approximately 225 basis points.
- Among its more heavily weighted sectors, the Fund experienced the strongest absolute performance in its Industrials holdings. In contrast, the Fund's investments in the Information Technology sector detracted from both absolute and relative performance during the quarter.
- Harsco Corporation was the Fund's top contributor in the second quarter, followed by Cross Country Healthcare Inc. In contrast, Tile Shop Holdings, Inc. and PVH Corp. were the Fund's largest detractors.
- We exited our position in Apogee Enterprises Inc during the quarter. While we did not add new names to the portfolio, we increased the Fund's position in Solaris Oilfield Infrastructure, Inc.

FUND OBJECTIVE

The Tocqueville Select Fund's primary investment objective is to achieve long-term capital appreciation by investing in a focused group of primarily small and mid-sized U.S. company equities. Current income is a secondary objective.

GLOSSARY OF TERMS

P/E: The weighted average of the price/earnings (P/E) ratios of the equity securities referenced. The P/E ratio is calculated by dividing the current price of the stock by the trailing earnings per share for the past 12 months.

The Russell 2500 Index is an unmanaged index that measures the performance of the 2,500 smallest companies in the Russell 3000 Index. You cannot invest directly in an index.

The Russell 2000 Index consists of the smallest 2000 companies in a group of 3000 U.S. companies in the Russell 3000 Index, as ranked by market capitalization.

The Morningstar Small-Value Portfolios invest in small U.S. companies with valuations and growth rates below other small-cap peers.

DISCLOSURES

Mutual Fund investing involves risk. Principal loss is possible. **Past performance is not a guarantee of future results.** The Fund invests in smaller companies, which involve additional or special risks such as small companies rely on limited product lines, financial resources and business activities that may make them more susceptible than larger companies to setbacks or downturns; and small cap stocks are less liquid and more thinly traded which make them more volatile than stocks of larger companies.
