

## FUND STRATEGY

The Fund typically invests in approximately 20 to 25 holdings of small to mid-sized U.S. companies that the portfolio managers believe represent the best equity investment opportunities. The Select Fund applies a "value approach" to investing, seeking to invest in common stocks that the portfolio managers believe are currently undervalued by the market or that represent special situations. The Fund may also invest in other securities, including obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities.

## PERFORMANCE

Average Annual Returns as of 09/30/18\*

	3 Month	YTD	1YR	3YR	5YR	10YR
Fund	0.97%	6.39%	6.99%	7.28%	2.71%	8.65%
Russell 2500 Index	4.70%	10.41%	16.19%	16.13%	11.37%	12.02%
Russell 2000 Index	3.58%	11.51%	15.24%	17.12%	11.07%	11.11%

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The performance assumes reinvestment of capital gains and dividends. Fund performance current to the most recent month-end may be lower or higher than the performance quoted and can be obtained by calling 1-800-697-3863 or visiting [www.tocquevillefunds.com](http://www.tocquevillefunds.com).

^The Advisor has contractually agreed to waive management fees and/or reimburse expenses in order to ensure that the Fund's expense ratio does not exceed 1.25% (excluding taxes, interest expense, acquired fund fees and expenses, or extraordinary expenses such as litigation) until at least 3/1/2019. In the absence of these fee waivers, total returns would be lower.

\*Performance information represents only past performance, before and after taxes, and does not necessarily indicate future results. Performance for the period 9/27/08 to 9/27/09 is for the Delafield Select Fund ("DSF"), a series of Natixis Funds Trust II, which was reorganized into The Select Fund on 9/28/09. Performance for periods prior to 9/27/08 is of the Reich & Tang Concentrated Portfolio L.P. (the "LP"), which was reorganized into DSF on 9/26/08. Following the reorganization of the LP into DSF, the LP's returns were adjusted to deduct estimated fees and expenses applicable to DSF's Class Y shares, based on projected asset levels for the first operating year of its Class Y shares (not taking into account any fee waivers or expense reimbursements). DSF and the LP had most of the same Portfolio Managers and substantially identical investment objectives and strategies as The Select Fund. Performance since 9/28/09 reflects actual Select Fund performance.

### Calendar Year Returns

## QUARTERLY UPDATE

- U.S. stocks experienced gains during the quarter, with strong domestic economic data and corporate earnings results driving strong returns in July and August that more than offset the negative tone of equity markets in September. With respect to the U.S. economy, data releases during the quarter showed rising wages, further declines in unemployment, increased consumer net worth and advances in consumer confidence. In terms of earnings, 80% of companies in the S&P 500 Index reported earnings ahead of expectations during the prior quarter, and revenue growth approximated 10% year over year. However, stocks weakened in September, with the negative impact coming from the trade war between the U.S. and China and the mention of which began to appear in several corporate preannouncements toward the end of the month.

- The Fund generated a gain of 0.97% in 3Q 2018, trailing the 4.70% return of the Russell 2500 Index and the 3.58% return of the Russell 2000 Index.
- Among the Fund's more heavily weighted sectors, its Industrials investments performed well, generating nearly 270 basis points of absolute return and about 80 basis points of relative performance. In contrast, the portfolio's Information Technology, Materials and Consumer Discretionary holdings experienced a challenging quarter. Owing to the more concentrated nature of the portfolio, movements in several individual holdings had an outsized impact on the Fund's total return for the quarter.
- The top contributors during the quarter included Harsco Corp., Fabrinet and Acuity Brands, Inc. The largest detractors were Diebold Nixdorf, Minerals Technologies Inc and TTM Technologies Inc.
- During the quarter, positions were initiated in Newell Brands Inc and Mohawk Industries Inc. Investments in Xerium Technologies Inc. and Diebold Nixdorf were sold during the quarter.

## FUND OBJECTIVE

The Tocqueville Select Fund's primary investment objective is to achieve long-term capital appreciation by investing in a focused group of primarily small and mid-sized U.S. company equities. Current income is a secondary objective.

## PORTFOLIO MANAGERS

J. Dennis Delafield, CFA, Vincent Sellecchia, CFA, and Donald Wang, CFA are co-lead portfolio managers of the Select Fund. Prior to joining Tocqueville in 2009, Mr. Delafield founded Delafield Asset Management, Inc. in 1980 which became a division of Reich & Tang Asset Management, LLC in 1991. He has a BA from Princeton University and holds the CFA designation. Prior to joining Tocqueville in 2009, Mr. Sellecchia held executive level positions at Reich & Tang Asset Management, LLC and Delafield Asset Management, Inc. He has a BA from Boston College and an MBA from New York University. Prior to joining Tocqueville in 2009, Mr. Wang held Portfolio Manager and Analyst positions at Reich & Tang Asset Management, LLC and Lindner Funds. He has a BS from New York University and holds the CFA designation.

Joshua Kaufthal and James Maxwell, CFA, are co-portfolio managers of the Select Fund. Prior to joining Tocqueville in 2009, Mr. Kaufthal spent six years at Delafield Asset Management and three years as an equity analyst in the research department of UBS. He began his career at Bear Stearns as a financial analyst. Mr. Kaufthal earned a BA from the University of Pennsylvania. Prior to joining Tocqueville in 2009, Mr. Maxwell spent three years at Delafield Asset Management. Mr. Maxwell graduated Cum Laude from Northern Arizona University.

## GLOSSARY OF TERMS

**P/E:** The weighted average of the price/earnings (P/E) ratios of the equity securities referenced. The P/E ratio is calculated by dividing the current price of the stock by the trailing earnings per share for the past 12 months.

**The Russell 2500 Index** is an unmanaged index that measures the performance of the 2,500 smallest companies in the Russell 3000 Index. You cannot invest directly in an index.

**The Russell 2000 Index** consists of the smallest 2000 companies in a group of 3000 U.S. companies in the Russell 3000 Index, as ranked by market capitalization.

**The Morningstar Small-Value Portfolios** invest in small U.S. companies with valuations and growth rates below other small-cap peers.

## DISCLOSURES

Mutual Fund investing involves risk. Principal loss is possible. **Past performance is not a guarantee of future results.** The Fund invests in smaller companies, which involve additional or special risks such as small companies rely on limited product lines, financial resources and business activities that may make them more susceptible than larger companies to setbacks or downturns; and small cap stocks are less liquid and more thinly traded which make them more volatile than stocks of larger companies.
